## SKILLS SUMMARY

- **Technologies Used:** Core Java (Proficient) | Selenium WebDriver | TestNG | Maven | Page Object Model (POM) | Git | JIRA | Eclipse | Functional Testing | Regression Testing | Smoke Testing
- **Tools/Platforms:** MySQL (Proficient), API (Decent), Postman (Decent), Selenium (Proficient), Jira(Proficient)

## EDUCATION

- **Lovely Professional University** Punjab, India  
*Bachelor of Technology - Computer Science and Engineering — CGPA: 8.20* Aug 2020 – May 2024
- **Atomic Energy Central School No. 4** Rajasthan, India  
*Intermediate — Percentage: 75%* Apr 2018 – Mar 2020
- **Atomic Energy Central School No. 4** Barabanki, India  
*Matriculation — Percentage: 70%* Apr 2016 – Mar 2018

## EXPERIENCE

- **QualityKiosk Technologies Private Limited** Navi Mumbai, Maharashtra  
*Test Engineer* May 2024 - Present
  - **Project Overview:** Performed Manual, API and Selenium Automation Testing for insurance web applications by executing 3000+ test cases across functional, UI, regression and smoke testing. Developed 50+ Selenium WebDriver automation scripts using Java identified and tracked 500+ defects in JIRA validated business requirements and collaborated with developers and QA teams to ensure high quality application releases.

## PROJECTS

- **Zurich Kotak General Insurance (Fire) — Genisys Configurator (GC):**
  - \* Developed and maintained 50+ Selenium WebDriver automation test scripts using Java for the Zurich Kotak General Insurance web portal.
  - \* Automated end-to-end business workflows for Policy Creation, Policy Renewal and Policy Rollover modules reducing manual testing effort.
  - \* Created and executed 200+ automated test cases covering functional regression and smoke testing scenarios.
  - \* Identified, logged, and tracked 100+ defects using JIRA and collaborated with developers to verify bug fixes.
  - \* Reduced regression testing execution time by approximately 70
- **Liberty General Insurance (Motor) — Genisys Configurator (GC):**
  - \* Worked as an API and Manual Tester on the Motor Insurance in the Genisys Configurator (Core Application).
  - \* Tested core Motor Insurance modules including Policy Issuance, Renewals, Endorsements, Premium Calculation, Claims Processing, Vehicle Inspection, and Payment Gateway workflows.
  - \* Performed Functional Testing, Regression Testing, UI Testing, API Testing, Integration Testing, and End-to-End Testing to validate business processes and application stability.
  - \* Verified motor insurance scenarios involving new vehicle policies, policy renewals, endorsements, IDV calculations, NCB (No Claim Bonus), vehicle details validation, and claim settlements.

## ACHIEVEMENTS

- **Code Crafters 2024:** Secured 2nd Prize in Java coding competition among 1000+ participants
- **HackerRank:** 4-star Rating in Java in Hacker Rank
- **Code-a-thon by Programming Pathshala:** Competed in an intensive Code-a-thon conducted by Programming Pathshala

## CERTIFICATIONS

- Coders Combat by GeeksforGeeks LPU.
- Front end Development with Board Infinity
- Django Web Framework with Coursera
